Hazard Identification, Risk Assessment & Risk Control (1 day)

HRDF SBL-KHAS
Claimable

INTRODUCTION

HIRARC is a systematic approach used to identify workplace hazards, assess risks, and implement effective control measures to prevent accidents and injuries. This training provides practical guidance on developing and implementing HIRARC based on workplace activities and industry requirements.

OBJECTIVE

Participants will be benefit by being able to:
- Identify workplace hazards and associated risks
- Conduct risk assessment and risk rating
- Apply the hierarchy of risk control
- Develop practical HIRARC for workplace activities

COURSE CONTENTS

HIRARC Fundamentals	- HIRARC concepts and requirements - DOSH Guidelines and ICOP requirements
Hazard Identification	- Types of workplace hazards - Hazard identification techniques - Spot hazard exercise
Risk Assessment	- Risk analysis and evaluation - Risk rating and common mistakes
Risk Control Measures	- Hierarchy of risk control - Control selection and implementation - HIRARC sample review
Workshop & Practical Exercise	- Develop HIRARC for workplace activities - Group discussion and presentation
