Machine Safety Awareness Training (1 day)

INTRODUCTION

Machine safety is essential to prevent workplace accidents, injuries and equipment damage. Improper machine operation,inadequate guarding, and unsafe work practices can lead to serious incidents. This training provides participants with practical knowledge on machine hazards, safety controls, machine guarding, and safe work practices to improve workplace safety compliance.

HRDF SBL-KHAS
Claimable

OBJECTIVE

Participants will be benefit by being able to:

- Identify common machine hazards and risks
- Apply machine safety control measures and guarding requirements
- Conduct basic machine safety inspections
- Recognise unsafe acts, unsafe conditions and near misses
